

COMPROMISE IN SMART CASE NOW A DEFINITE HOPE

Attorney Kinney Leaves For
Mainland But Negotiations
Progress

Mrs. Ella A. Smart and Dr. F. P. Smart of Norfolk, Va., mother and brother of Henry Gaillard Smart, arrived here on the steamer Mongolia Saturday. Sailing on the steamer Niagara yesterday Attorney W. A. Kinney departed for Vancouver, B. C. The latter event at least is believed to have a significant bearing on the contest over the will and big estate of the late Thelma Parker Smart and, it is thought, indicates a compromise between the warring factions in the near future, though counsel for neither side will admit that much today.

The reason for the departure of Attorney Kinney, leading counsel for Mrs. Elizabeth J. Knight, mother of the late Thelma Parker Smart, is not disclosed. It is said he has been talking for several weeks of returning to his home in eastern Canada because of a press of business affairs there.

Attorney Thompson, leading counsel for Smart, says the sole reason for the visit of the latter's mother and brother is their desire to be with him for a time and to experience the rare delight of Hawaii's winter climate. For their entertainment Smart had leased and fitted up the T. A. Burningham home on Nuuanu street. Presumably their stay will be of some duration.

According to the attorneys there is no development at the present time in the negotiations for a compromise of the contest. Attorney Anderson, of Mrs. Knight's counsel, expects to leave for the mainland on Tuesday for Washington, D. C., but his visit is on other business than that of the Smart case.

Though counsel for neither side will talk for publication, their general bearing indicates that the hope for a permanent and stable compromise is better now than at any time since the suit was brought. The negotiations that have been going on, with each side making proposals and suggestions, are understood still to be making definite progress. At the same time, it cannot be stated with any certainty that a compromise plan is certain to result.

Attorney Kinney still remains a member of the legal array representing Mrs. Frederick Knight, mother of Thelma Parker Smart, and that side of the issue.

Real Estate Transactions

Entered of Record from 10:30 a. m. April 2, 1915, to 10:30 a. m., April 3, 1915.

Amazing Sight at the Marvelous Exposition

THE heroic Fountain of Energy at the Panama-Pacific International Exposition, San Francisco, is shown here spouting its spectacular stream of water in illumination at night. This fountain is one of the greatest sights of interest in South Garden at the Exposition and faces the main entrance grounds. It has an allegorical significance, as it symbolizes the force that achieved the Panama canal, the motive for the great International Exposition.

One of the State Buildings at the Great Exposition

THIS picture shows the entrance to the New York State building at the Panama-Pacific International Exposition, San Francisco. This is a wonderfully handsome structure of Græco-Roman design and is finished in travertine to match the color scheme of the exhibit palaces. New York city also has an individual pavilion at the Exposition.

IN WAR ARENA

BULGARIANS INVADE SERBIA AND ARE REPULSED

ATHENS, Greece, April 4.—Direct

dispatches yesterday from Nish, Serbia, report that several thousand Bulgarian irregulars, wearing the uniform of regulars, forded the river Vardar and invaded Serbia. They killed the frontier guards, but were later met by detachments of Serbian regulars, who drove them back across the border with heavy losses. Fifty Serbians were killed.

From Cetinje come advices that Austria, having failed in all attempts to conquer the proud little kingdom of Montenegro, is now endeavoring to isolate and starve it out. Overwhelming forces of the dual monarchy are surrounding the Montenegrin frontiers.

BRITAIN HEARS OF ZEPPELIN RAID SOON

LONDON, England, April 4.—According to the reports which have come through neutral sources, Germany is preparing for the first concerted air raid against England. These reports state that the Zeppelins are to be given their decisive test and that almost the entire Zeppelin fleet will start for England within a short time.

SLAVS DRIVE PASSAGE THROUGH CARPATHIANS.

LONDON, Eng., April 5.—Russian troops have stormed a way through the passes of the Carpathians and are defiling onto the plains of Hungary. Driving westward, after the fall of Przemyśl, the Russian armies have ousted the Austro-German forces of the Beskid mountains and, though repulsed at other points, have won a gateway to the land of their desire.

GERMANS APOLOGIZE FOR INSULTING U. S. FLAG

PARIS, France, April 4.—As a result of the American consul's protests, says the Journal des Debats today, the German military authorities in Belgium have presented their excuses to the burgomaster of Liege for an incident in which the American flag was treated with contumely.

During the feast day of a Belgian saint, it is related, the burgomaster and councilmen of Liege wore American flags on their breasts in token of

their gratitude to America for the relief extended to starving Belgium.

German officers compelled the Belgian officials to remove the flags, whereupon the citizenry pinned ten flags on their breasts for every one their representatives had been compelled to doff.

Incensed at this obstinacy, German soldiers tore the flags from the citizenry's clothes.

TURKS LOSE CRUISER; BLOWN UP BY MINE

LONDON, England, April 5.—Semi-official dispatches from Petrograd report that the Turkish protected cruiser Medjidieh, built by the Cramps on the Delaware river, has been sunk by a mine off the Russian coast of the Black sea, while attempting a demonstration.

The crew is said to have been rescued.

Mines and submarines both took their toll yesterday, but the loss was heavier for Germany and her allies than for England.

GERMAN AND BRITISH VESSELS SUNK.

From Stockholm a dispatch to the Reuter Telegram Company carries word that the German steamer Grete Hemmoth, plying between Emden and Stockholm, struck a mine and went down with 25 of her crew.

In English waters, the British steamship Cornwall Coast, a small vessel, is reported to have been sunk by a German submarine. What was the loss of life is not yet known.

THREE JAPANESE ARE VICTIMS OF FILIPINO SLASHER

Three Japanese employed at Waipio are victims of an assault with a knife, alleged to have been made by a Filipino named Feliciano.

City and County Detective Harry T. Lake will visit the camp tomorrow to inquire into a cutting affray which caused the three field laborers to the Waipio hospital suffering from serious cuts. One Japanese is said to have been slashed across the chest, the weapon penetrating his left lung. He

is reported in a critical condition.

According to Officer Lake, the affair occurred several days ago. A Filipino who had been acting in a peculiar manner came upon a group of Japanese in a distant field. Without a warning he flashed a knife. Before the Japanese could escape, three

of them were wounded.

Deputy Sheriff Fernandes has the Filipino in custody. No charge has been brought against him, pending a further investigation of the affair by Lake.

SPECIAL SHIPPING

VESSELS TO AND FROM THE ISLANDS

(Special "Wireless" to Merchants' Exchange.)

1 p. m., Monday, April 15, 1915.

SAN FRANCISCO—Arrived, Apr. 4, S. S. Enterprise, from Hilo, Mar. 27.

SAN FRANCISCO—Arrived, Apr. 5, bark W. B. Flint, from Punaluu, Mar. 10.

PORT SAN LUIS—Sailed, Apr. 3, S. S. Santa Maria for Honolulu.

SAN FRANCISCO—Arrived, Apr. 5, 7 a. m., S. S. Korea, hence Mar. 30.

GRAY'S HARBOR—Arrived, Apr. 4, sch. Fred J. Wood, hence Mar. 13.

SAN FRANCISCO—Sailed, Apr. 5, noon, U. S. A. T. Sherman for Honolulu.

SAN FRANCISCO—Sailed, Apr. 3, bark R. P. Rithet, for Honolulu.

SEATTLE—Sailed, Apr. 5, S. S. Arizona, for Honolulu.

SAN FRANCISCO—Arrived, Apr. 3, sch. Annie Johnson, from Mahukona, Mar. 12.

Radiograms.

S. S. LURLINE—Arrives from San Francisco Wednesday morning with 9 cabin and 4 steerage passengers; 130 bags of mail; 6 packages of cargo; 15 autos; 2299 tons of cargo.

U. S. A. T. Thomas sails for San Francisco 10 a. m. Tuesday.

S. S. Siberia sails for San Francisco 9 a. m. Tuesday.

HARBOR NOTES

The next mail from the mainland is due Wednesday morning by the Matson steamer Lurline.

In addition to sugar, the Inter-Island steamer Claudine brought a general cargo of island products from Maui ports.

The schooner M. Turner was reported discharging lumber at Kahului when the steamer Claudine left that port for Honolulu.

The Pacific Mail liner Siberia will steam to San Francisco at 9 o'clock tomorrow morning. It will take the next mail to the mainland.

Hui Au Kai to Help.

The Hui Au Kai, the Girls' amateur sports organization, will give an entertainment on the evening of Monday, April 12, to raise funds for the F. 4 relief. Mr. George Casper is making up the program, which will be largely musical. No admission will

be charged but two collection boxes in the hall will afford opportunity for contributions. It is planned to secure the armory for this event.

THE DARING DIVERS OF THURSDAY ISLAND

Diving for shell, and incidentally for the little treasures of pearl—it has been estimated that one shell in a thousand contains a pearl—is carried on in deeper water off Thursday Island than anywhere else. Other productive beds lie comparatively shallow—the Persian Gulf, the Sulu Sea, the Gulf of Manar. The greatest depth at which a diver in helmet and dress can perform any sort of useful labor is held to be 182 feet. At that depth a Spanish diver raised £9000 in silver bars from a wreck off Finisterre. At 150 feet an English diver salvaged £50,000 from a wreck off Leuconna Reef of the Chinese coast.

The maximum depth to which the sponge-fishers of the Mediterranean successfully descend is 150 feet. In the Torres Strait, with the depletion of the beds, the divers have moved from the shallow water of from four to six fathoms to depths of 120 feet, where the operation is a distressful and perilous one. A paternal law prohibits diving beyond a specified depth of safety; but as the courts have held that a diver must be actually seen at that depth, if anybody is to be held amenable, and as the reefs are remote from any practical scheme of supervision, it is a law of small consequence, after all, and the perilous deep diving goes on, no doubt, much as before, with its occasional issue of sudden death. Subjected to a hazardous degree of atmospheric pressure—at 100 feet it is 60 pounds to the square inch—the divers are attacked by various characteristic disturbances; pains in the muscles and joints, for example ("the bends"), and deafness, spells of fainting, and paralysis, otherwise known as "diver's palsy." The effects appear when the diver ascends too rapidly from deep water and the pressure is removed. It is then that the cases of sudden death occur—the diver found dead in his helmet or expiring on the deck when the helmet is removed.

It is a short life (they say) and a bitter one, fit only for the yellow and brown men—the Japanese and Papuans and Manila-men and island boys; the Japanese, especially, who are tough fellows, sullenly reckless of their days, and thinking of life only in terms of hard labor and brief periods of violent pleasure.—Norman Duncan in Harper's Magazine for April.

Arthur J. Morgan, owner of the Edge Hill coal mine near Bellaire, O., announced his acceptance of the union wage scale and ordered 125 miners back to work.
